beauty hair

## HD RIBOXIDE

*Hair loss prevention.*  
pH 6.4

Is a trichocosmetic product highlighted by a great restorative power: it tones the scalp, helps improving the tropism of the hair bulb and hygiene conditions, gives body and volume to hair. given its wording, hd-riboxide is a valuable cosmetic adjunct in the prevention of external causes that can lead to hair loss.

*Modern biology gives RNA (Ribonucleic Acids Polynucleotide) the power to manage the protein synthesis within the living cell. Trichologically speaking, of particular interest is the finding that the presence of RNA in the cells of the hair bulb is very large and proportional to the elevated protein synthesis that takes place in such a place. Behind the HD-RIBOXIDE formulation, there are fragments of RNA, up to the nucleoside precursors. Its new formulation is enriched with trace elements, which return the weakened hair essential and valuable components for the body such as Zinc, which plays a key role as an antioxidant and Copper, which facilitates the process of keratinization of the hair, strengthening it. On the other hand, the biological Olive Leaf extract in Thermal Water has valuable antioxidant properties. Formulated without PARABENS.*

**HOW TO USE:** wash the hair with a specific detergent of Bio Lymphé line, wipe gently with a towel. Distribute HD-RIBOXIDE on the scalp, massage gently, do not rinse, proceed eventually with other treatments.

**FREQUENCY:** apply HD-RIBOXIDE twice or three times a week for four weeks. Then as a maintenance treatment reduce to once/twice a week. .

Pack of 100 ml. Professional use.

## LOTIONS:

### TREATMENT FOR DRY AND IRRITATED SKIN, SEBUM AND DANDRUFF

#### DEPUREX

*Cosmetic purifying.*  
pH 5.6

Has a purifying and treating action, has a strong soothing, refreshing, decongestant, softening power and soothes the redness of the scalp.

DEPUREX is a cosmetic lotion for the scalp which bases its action on a valuable and important active ingredient of vegetable origin: the Guaiazulene. To this particular substance that is extracted from Oil of Guaiac, evergreen plant which comes from the Caribbean, are attributed eudermic exceptional properties. DEPUREX exerts a protective action on the scalp, which tends to prevent and limit the side effects that may arise from external factors and very aggressive treatments. It helps to remove those deposits of sebum and dandruff, which may impede the normal hair growth.

*The action of Guaiazulene is further enhanced by extracts in Thermal Water with a purifying and antioxidant action, rich in polyphenols and vitamins, organic products such as Mediterranean Citrus and Olive Leaves and extracts of Agrimonia, Rusco, Burdock and Rose. Formulated without PARABENS.*

**HOW TO USE:** apply on dry skin DEPUREX massaging gently for 2-3 mn, then wash it.

**FREQUENCY:** Use once a week.

Pack of 100 ml. Professional use.

#### BIORELLANA

*Dandruff-Sebum*  
cosmetic control.  
pH 5.4

It is a preparation with purifying activity, designed to counteract, where not attributed to pathologies, two of the most important imperfections of the scalp: excess of sebum/dandruff. formulated without parabens.

*Raw materials used: Melaleuca Alternifolia oil (Tea Tre oil) with antiseptic and balsamic action, Burdock root extract (Arctium Lappa root extract) strengthening, nourishing and antioxidant. It also exerts a sebum-regulating action.*

**HOW TO USE:** wash the hair with an appropriate detergent of Bio Limphe line, wipe the hair with a towel, then distribute BIORELLANA on the scalp and massage gently. Leave it on for 3-5 mn, do not rinse and eventually use other treatments.

**FREQUENCY:** once, twice a week for the first month. Then use it as a maintenance treatment approximately once every 10 days.

Pack of 100 ml. Professional use.

## LOTIONS:

### TREATMENT FOR DRY AND REDDENED SKIN

#### PROCUTAN

Scalp hydrating lotion.  
pH 5

Procutan is a cream particularly advisable for non-pathological problems of dry, desquamated, reddened or with dandruff skin.

*Its special formula based on biological Sunflower Oil, which is one of the most appreciated oils, because rich in vitamins E and F, has nourishing, softening and lubricating properties. It was enriched with biological Argan oil, which strengthens its effects, giving a soft and velvety touch. The presence of Eucalyptus, Allanthoine and Panthenol provides the product with balsamic and soothing properties. It also contains a biological extract of Olive leaves in Thermal Water, rich in polyphenols and flavonoids with an antioxidant and protective action. PROCUTAN does not contain LANOLINE and its derivatives. Formulated without PARABENS*

**HOW TO USE:** distribute on dried skin with the distributor, leave the product on for 4-5 mn. Add lukewarm water and emulsify. Wash the hair with a specific detergent of Bio Lymphé line.

**FREQUENCY:** once/twice a week.

Pack: Tube of 100 ml. Professional use.

#### MASKERA PLUS

Moisturizing conditioner  
for hair.  
pH 4.4

The particularly innovative formula, based on organic argan oil and passion flower, gives the hair exceptional shine, softness, body and combability without weighing it down, while maintaining the right degree of hydration.

*The presence of vegetable extracts of Olive and Mallow of organic origin and Ivy, together with a balanced pH and not excessively acid, help to increase the eudermic property of the product, if it comes into contact with the skin.*

*Formulated without PARABENS. Maskera plus does not contain LANOLIN or its derivatives.*

**HOW TO USE:** after using the detergent on wiped hair, apply the product on lengths and ends, massaging thoroughly to help the adherence to the hair. Leave it on for 4-5 mn, then rinse thoroughly.

**FREQUENCY:** once a week.

Pack of 250 ml. Professional use.

## LOTIONS: FALL PREVENTION TREATMENT

### REACTIVE LOTION

*Hair loss prevention.*

REACTIVE LOTION is advised as a basic cosmetic treatment helping the external causes prevention that can lead to hair loss.

*REACTIVE LOTION, thanks to a revolutionary formulation that uses a particular vegetable, treated according to the FILATOV method and with EXTRACTS IN THERMAL WATER, with purifying and antioxidant action, allows after a few applications to obtain a significant improvement.*

*Hair treated with REACTIVE LOTION appear more vital, soft and bright.*

**HOW TO USE:** after washing the hair with a Bio Lymphé detergent, damp it with a towel, distribute completely the content of the vial on the scalp and on the hair, massaging gently with finger-tips. Do not rinse. Proceed directly with styling.

**FREQUENCY OF APPLICATION:** In the initial phase, two vials of REACTIVE LOTION per week for 3-4 weeks, then one vial every 7-10 days.

This product does not contain parabens. Professional use.

Pack: contains 12 single-dose vials of 10 ml.

## HAIR BATHS

### LYMPHE FOR SKIN AND HAIR

#### FORMULAS BASED ON SPECIFIC INGREDIENTS IN SYNERGY WITH EACH OTHER:

ARGAN Oil, Sunflower Oil, Mallow, Olive Leaves, Orange, Clementine, Lemon, Chamomile, Rosemary, Passion Fruit....

All products are Paraben and Lanolin free.

#### HAIR BATH

*Hair loss prevention.*

pH 5.8

It is a very high quality cleanser specifically created to contrast or prevent, cosmetically, the external causes that can lead to excessive hair loss. The formula is enriched with trace elements, very useful to maintain the scalp in the best conditions of hygiene, giving tone and body to the hair shaft.

*Raw materials used:*

*Nettle Extract, Birch, Equisetum, Tussilago Farfara and Fucus Seaweed and hair-protecting functional substances such as Panthenol, Argan Oil and Lavender Oil. Without PARABENS.*

Pack of 250 ml / 1000 ml. Professional use.

#### HAIR BATH

*Frequent Use.*

pH 5.6

Suitable for all those who wish to wash their hair several times a week.

*Its specific formulation, contains extremely valuable raw materials: Organic Argan Oil emollient and shining, the extracts of organic Mallow leaves and Millet Seeds, softening soothing and astringent action contribute to highlight the functionality of the preparation. Without PARABENS.*

Pack of 250 ml. Professional use.

## HAIR BATH

### HAIR BATH

**Dandruff Control.**  
pH 5.4

It is a specific cleanser for hair with dandruff, not of pathological origin, which helps to fight in the most effective way this annoying blemish, keeping the scalp in the best conditions of hygiene but without attacking it.

The effectiveness is due to its very special composition, according to which, all the main raw materials used, act in synergy, allowing low doses and then great sweetness of action, giving even greater value and balance to the product.

**Raw materials used:**

*Argan Oil Bio, polishing and protective action, Capsicum Frutescens Extract, anti-dandruff and antioxidant, Urtica Dioica Extract with equalizing and astringent action. Without PARABENS.*

Pack of 250 ml / 1000 ml. Professional use.

### HAIR BATH

**Sebum Balancing.**  
pH 5.5

The sebaceous hypersecretion, when not caused by pathologies, in most cases is due to an excessive use of too aggressive products for capillary cleansing that, removing in excess the hydrolipidic skin mantle, induce the sebaceous glands to produce more quickly and in greater quantity.

**Raw materials used:**

*Argan Oil Bio, polishing and protective action. Extract of Chamomile, with calming effect. Normalizing action, exerted by Allantoin for the release of sebum. Without PARABENS.*

Pack of 250 ml / 1000 ml. Professional use.

## HAIR BATH

### NON-IONIC HYGIENE TREATMENT

pH 3.8

It is a SLES/SLS free, silicone free cleanser, indicated for all hair types, whether intact or affected by dryness, split ends, oiliness and other anomalies. These imperfections can also be accentuated by the intense use of non-specific detergents.

The washing substances are particularly delicate on the skin.

#### *Raw materials used:*

*Organic Olive Leaf extract with moisturizing and antioxidant action, Wheat Protein and Organic Rosemary extract with restructuring and restorative action, Organic Argan Oil, with high emollient and polishing power of the stem.*

*Without PARABENS. This product does not contain SLS/SLES and SILICONES.*

**HOW TO USE IT:** can be used every day by applying a single dose. If used less frequently, double application is recommended. On damp hair distribute a first dose, then rinse. Repeat the operation and rinse thoroughly.

Pack of 250 ml / 1000 ml. Professional use.

### PERFORMANCE BALM

*Detangling Conditioner.*

pH 4.2

Fluid cream, able to soften polish and detangle the hair.

#### *Raw materials used:*

*Argan Oil Bio, nourishing, polishing and protective. Mallow Extract Bio, softening and soothing. Extract of Calendula and Passionflower Flowers, skin conditioners. Horse Chestnut Extract, toning. Yarrow Leaf and Flower Extract, soothing, refreshing and toning. Passion Fruit, protective, nourishing. Does not contain LANOLIN or its derivatives. Without PARABENS.*

**HOW TO USE IT:** after the cleanser, dab off the excess water with a towelette, distribute the product on the hair, leave on for 3-4 minutes, then emulsify with warm water and rinse thoroughly.

Pack of 250 ml / 1000 ml.  
Professional use.
